That's the concept behind the Slime in Space virtual field trip. Featuring real astronauts and Nickelodeon celebrities, the 15-minute video shows kids how slime and water react in a microgravity environment 250 miles above the Earth. Along the way, it answers burning questions like, "Is slime a solid or a liquid?" and "Can you slime a person in ...

History. In 1989 on the central coast of California, Steve Cegelski began blending and bottling tire sealants by hand with a power drill and drywall blade in his garage. Focused on aiding local mountain bikers and off-roaders, the sealant was often referred to as "that green slimy stuff." The Slime name stuck and the green color became an intentional statement of the company's commitment ...
