gut. However, dogs do suffer from their own unique intestinal parasites. The closest equivalent to the human pinworm is the dog whipworm - but don't worry, you aren't going to pick this up from your pet either, as it's a dog-only parasite.

Can Dogs Get Pinworms? - WagWalking

Thanks for answering my question. What you are describing is tapeworms. Dogs get tapeworms either from hunting small mammals (mice, squirrels, etc) or from fleas. Most the time in dogs it is fleas, so be sure to check closely for these as well and you may want to get your dog started on a good flea preventive as well.
