The Mathematics of Coding Theory written by Paul Garrett is the lecture textbook for Math 5251, U of Minnesota-Twin Cities. This book is well decorated and printing quality is also pretty nice. Prof. Andrew Odlyzko lectures this course every Spring, he is very strong in Mathematics and knowledgable in coding.

Coding theory -

Wikipedia

Coding is a real-world way to teach mathematical thinking.

When students create or debug a program, they practice solving problems. Math

teachers find that Tynker's beginning lessons are a great way to teach pattern identification as well.
